How to Use This Index

This index is for the moment you think, "I know one of those books talked about this. Which one?"

It lists about 185 topics from A to Z. Each topic points to the free books that cover it, and to the chapter in each book where you will find it. The books include the Christian books and mini books, the verse-by-verse Bible studies, the Fact Check Series, the plain-English civics books, the practical guides, the survival guides, the natural health books and the guitar books. Every one of them is free to read and download at trinfinityenterprises.com.

How an Entry Reads

Each entry gives the topic in bold, then the books in italics. After each book comes the chapter number and the chapter or section title in quotation marks. For example:

> **Example Anger.** *The Sermon on the Mount*, ch. 4, "Anger Is a Heart Problem"; *Plumb Line*, ch. 7, "A Short Fuse."

That tells you to open *The Sermon on the Mount* to chapter 4, or *Plumb Line* to chapter 7.

- **Whole book** means the entire book is about that topic. Start at the beginning.
- **A title with no chapter number** is a part, appendix or section of the book. Look for that title in the book's contents page.
- **Lesson, week, session, day, topic or question** is used for books that are laid out that way instead of by chapter.
- **Section** is used for the short mini books, which are divided into numbered sections.

A Few Things to Know

Books are listed by how much they say. The book that gives a topic the most room comes first. Most entries list up to seven books, so a topic that comes up in many places shows the strongest ones, not every passing mention.

Look under more than one word. Topics that sit close together are listed separately so that each list stays short. If you do not find what you need under Death and dying, try Grief and loss, Heaven, and When someone dies.

Bible books. There is a free verse-by-verse study for every book of the Bible. Those studies are listed in Bible order at the end of this index rather than under each topic. For a person, place or word in the Bible, start with *A Plain Bible Dictionary*, which points to the right study.

Faith books and other books. Topics about the Christian faith point to the Christian books. Topics about government, money, health, the home and the guitar point to the other books. A few topics, like anger, grief and money, show both.

Editions. The chapter numbers and titles match the free editions on the website as of November 2026. If a later edition moves something, look for the chapter title in that book's contents page.
